PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on internship experience building web portals using PHP, MySQL, JavaScript, and HTML/CSS. Strong foundation in Java, React, and Node.js, with practical exposure to automation testing (Selenium, TestNG) and Agile workflows. Quick learner, adaptive team player, looking to contribute to full-stack web development projects.

WORK EXPERIENCE

Full Stack Developer Intern — Orange Business Services [\(View Certificate\)](#)

Jun 2025 – Aug 2025

GDO Function, Gurgaon

- Built and maintained internal web portals — Handover Portal, XImpact, and Unified Pre-Post Check Portal — using PHP, MySQL, HTML, CSS, and JavaScript.
- Completed all assigned development tasks on schedule, collaborating closely with the team in an Agile environment.
- Recognized as a fast learner and adaptive team player by supervisors upon successful completion of the internship.

PROJECTS

Tempting Bites — AI-Powered Cake Ordering Platform

[View on GitHub](#)

- Built a production-grade full-stack e-commerce application on the LAMP stack (Linux, Apache, MySQL, PHP) using Laravel 12 and MVC architecture, implementing end-to-end CRUD operations for cakes, categories, orders, reviews, and user management.
- Implemented role-based authentication using Laravel Breeze, middleware, Eloquent ORM, migrations, and RESTful routing for secure Admin and Customer access control.
- Integrated Razorpay payment gateway, AI cake recommendation assistant, cart, wishlist, search, checkout, and order management with a responsive UI using Tailwind CSS, Blade, and JavaScript.
- Deployed on Railway with cloud-hosted MySQL, environment configuration, Vite asset bundling, Git/GitHub version control, and production optimisation.

Selenium Mini Testing Framework

[View on GitHub](#)

- Automated testing of an auction web application using Selenium WebDriver (Firefox); used TestNG to generate detailed reports verifying functional reliability.

Page Object Model (POM) Automation Framework

[View on GitHub](#)

- Designed a POM-based automation framework using Selenium, Java, TestNG, and Maven; integrated Log4j and Extent Reports for logging and reporting.

EDUCATION

B.E. in Computer Science and Engineering — OP Jindal University

2022 – 2026 (Expected)

CGPA: 7.0 / 10

12th Grade — Jawahar Navodaya Vidyalaya

2021

Score: 83.4%

10th Grade — Jawahar Navodaya Vidyalaya

2019

Score: 87.8%

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, PHP, C

Web/Frameworks: React, Node.js, Laravel, Tailwind CSS, HTML, CSS, Bootstrap

Databases: MySQL, MongoDB

Testing Tools: Selenium, WebDriver, TestNG, Maven

Tools & Practices: Git, GitHub, GitLab, Jira, Agile, VS Code, Windows, Linux

Core Concepts: DSA, OOPs, DBMS, Operating Systems
